

PART 2 (19-30강) 100~147p

19-1

William Allingham, poet and editor, is ① **knowing** mainly through a small group of poems that regularly appear in anthologies of Irish verse.

(A) He was born in Ballyshannon, County Donegal, Ireland and his first job was in the local bank, where his father was manager. In 1846, he took a post with the national excise service and spent the next twenty-four years ② **to work** as a customs officer.

(B) In his own day, however, Allingham was well known to poets such as Robert Browning, Dante Gabriel Rossetti, and Alfred Tennyson, and his work ③ **inspired** later Irish poets, ④ **including** W. B. Yeats and John Hewitt.

(C) He first visited England in 1843 and eventually ⑤ **settled** there in 1863. He befriended the influential poet, critic, and editor, Leigh Hunt, to whom he dedicated his first book of poems in 1850. His most ambitious work was the verse novel, Laurence Bloomfield in Ireland, in ⑥ **which** he tried to promote reform of land ownership and tenants' rights.

283) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

285) 글의 주제로 가장 적절한 것을 고르시오.

- ① William, an 18th century Irish poet
② History of Irish literature
③ Differences between poetry and fiction
④ William praised by Leigh Hunt as the best poet
⑤ Explanation of William Allingham

19-2

The first tunnel built under the Thames ① **designed** by Marc Isambard Brunei (1769-1849).

(A) The tunnel took 18 years ② **build**, and 10 men died during its construction. When it opened, it was at first targeted by thieves who would lie in wait in the shadows for unsuspecting pedestrians. The East London Railway took over the tunnel in 1869, and it now carries the East London Underground line across the river.

(B) Once ③ **released**, Brunei worked on his observation, and eventually constructed a huge drill with corkscrew blades ④ **that** passed dug-up material down its length as it moved forward, which was used to bore a tunnel from Wapping to Rotherhithe.

(C) Brunel fled the French Revolution for New York and then London, and at one point found himself in debtor's prison. While in prison, he watched a shipworm bore a hole through a piece of wood by passing the chewed-up wood pulp through its body and ⑤ **excreting** it as it ⑥ **progresses**.

288) 글의 주제로 가장 적절한 것을 고르시오.

- ① The history of thieves on the London undergrounds
- ② The reason why London's subway system is aging
- ③ Marc Isambard Bruel, the first man to build a tunnel
- ④ Marc Isambard Bruel designed London subway
- ⑤ The first tunnel through the lower part of the river

19-3

At Greenwich in 1796, the astronomer Maskelyne ① **dismissed** Kinnebrook, his assistant, because Kinnebrook ② **observing** the times of stellar transits almost a second later than he did.

(A) His attention ③ **called** to the error" and it would seem ④ **what** he must have striven ⑤ **to correct** it. Nevertheless, it increased during the succeeding months until, in January, 1796, it had become about eight tenths of a second.

(B) Then Maskelyne dismissed him. The error was serious, for upon such observations depended the calibration of the clock, and upon the clock depended all other observations of place and time.

(C) Maskelyne was convinced ⑥ **that** all through 1794 there had been no discrepancy between the two of them. Then in August, 1795, Kinnebrook was found to be recording times about half a second later than Maskelyne.

289) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

- ① (A)-(B)-(C) ② (C)-(B)-(A) ③ (B)-(C)-(A) ④ (A)-(C)-(B) ⑤ (C)-(A)-(B)

- ① An astronomer who tried to get the right time
 ② Reasons to prevent employees from being laid off
 ③ Why can't I fire Support?
 ④ The reason why star travel time has changed
 ⑤ Accidents caused by obsessed with small things

19-4

When her grandmother didn't answer right away, Kay got worried and started to ① say something, but before she could she watched as Teresa reached into the drawer by her bed and to Kay's astonishment, pulled out a tape recorder.

(A) She once told Kay ② what she was allergic to the stuff the world made. She never said manmade. She always said world made" so how and why, , , , as the question was beginning to ③ form Teresa said, I made this recording so I won't forget anything. I need you to listen closely".

(B) Teresa looked at Kay ④ make sure she was listening. Too shocked to say anything, Kay nodded as she sat down in the chair ⑤ faces her grandmother's wheelchair as Teresa played the tape.

(C) What was her grandmother up to now? Where could she have gotten a tape recorder? And from the looks of it, she knew exactly how to use it. Kay had never seen her grandmother with anything like that. Teresa didn't even like using the phone.

292) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

- ① (A)-(B)-(C) ② (C)-(B)-(A) ③ (B)-(C)-(A) ④ (A)-(C)-(B) ⑤ (C)-(A)-(B)

294) 글의 주제로 가장 적절한 것을 고르시오.

- ① Why grandma can't walk
 ② he amazing secret that exists between grandmother and grandson
 ③ An old lady who recorded what she wanted to tell her granddaughter
 ④ The difference between what the world makes and what man makes
 ⑤ A grandson who didn't know much about his grandmother

20-1

For over a million years humans lived in small, mobile groups gathering their food from the wild and hunting animals.

(A) Hunting and gathering groups survived but they were increasingly ① **pushing** into more marginal areas and those ② **that** the farmers could not utilize. By the twentieth century only a few groups of such people survived to be studied by anthropologists. The adoption of farming was the most fundamental change in human history and led on to all ③ **what** we call civilization and recorded human history.

(B) Across the world humans slowly began ④ **to settle** in one location and ⑤ **replacing** gathered plants with ones grown on special plots of land while a few animals were also domesticated. In less than ten thousand years this new, agricultural way of life had spread around the globe.

(C) When resources ⑥ **permitted**, they came together in larger groups and occasionally, when they could rely on particularly rich sources of food, they became semi-sedentary. Then, in a relatively short period of time after the end of the last ice age, about 10, 000 BCE, this stable and well-balanced way of life began to change.

295) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

- ① (C)-(B)-(A) ② (C)-(A)-(B) ③ (A)-(C)-(B) ④ (B)-(A)-(C) ⑤ (B)-(C)-(A)

296) 밑줄 친 ①~⑥ 중에서 문맥상 혹은 어법상 어색한 것을 찾아 올바르게 고쳐 쓰시오. (3개)

()	_____ → _____	
()	_____ → _____	
()	_____ → _____	

297) 글의 주제로 가장 적절한 것을 고르시오.

- ① Why civilization developed in a plenty of food resources
- ② The development of agriculture has led to the history of mankind
- ③ What was needed to settle down was a large group
- ④ Ranching and gathering are the basis for creating a civilized society
- ⑤ It was 10,000 years ago that humans began to record history

20-2

Most historians and philosophers agree ① that it was the teachings of the seventeenth-century French philosopher René Descartes ② what ushered in the thinking of the modern age and began the unraveling of the ancient link between emotions and health.

(A) In Descartes's orderly division of the world into rational and irrational — provable and unprovable — emotions and their relationship to health and disease clearly fell into the latter domain. And there they remained until scientific tools powerful enough ③ challenged the categorization could rescue them.

(B) In that era, emotions seemed to be a thing of magic, fleeting and undefinable in the framework of the science of the day.

(C) In his reaction to the religious wars and the resulting chaos ④ that spread across Europe for most of his adult life, Descartes formulated the concepts of rationalism and the necessity of visible proof ⑤ that were to become the founding principles of modern science.

298) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

① (C)-(B)-(A) ② (C)-(A)-(B) ③ (B)-(A)-(C) ④ (B)-(C)-(A) ⑤ (A)-(C)-(B)

299) 밑줄 친 ①~⑤ 중에서 문맥상 혹은 어법상 어색한 것을 찾아 올바르게 고쳐 쓰시오. (2개)

기호	어색한 표현	올바른 표현
()	_____ → _____	
()	_____ → _____	

300) 글의 주제로 가장 적절한 것을 고르시오.

- ① Emotions are non-reasonable that cannot be proved
- ② Rationalism created by Descartes
- ③ Reason to value reason over emotion
- ④ Descartes' rationalism in the creation of religious wars
- ⑤ The effect of emotions on health

20-3

Fashions and social pressures shift.

(A) However, in the prosperous 1960s, when many individuals were seeking a challenge to the status quo, fashions changed and social pressure ① **relaxed**. These changes encouraged persons who wished to ② **ride** the crest of changing fashion, to seek out hidden log buildings, to remove the siding, and to ③ **enjoying** the glow of their visual confirmation of society's rediscovery of its heritage.

(B) Needless to say, this was not a widely pursued innovation, but enough affluent people did do so in their quest to ④ **maintaining** their position as societal leaders. As a result, the log house reasserted its position as an American icon, regardless of the ethnic background of its original builders.

(C) Throughout almost the first three-quarters of the 20th century, log houses in the United States, as in Norway, were ⑤ **considered** to be rough, primitive, and low-class housing. As a consequence, weatherboards were widely used to mask earlier log construction.

301) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

① (A)-(B)-(C) ② (B)-(C)-(A) ③ (C)-(A)-(B) ④ (A)-(C)-(B) ⑤ (C)-(B)-(A)

302) 밑줄 친 ①~⑤ 중에서 문맥상 혹은 어법상 어색한 것을 찾아 올바르게 고쳐 쓰시오. (2개)

기호	어색한 표현	올바른 표현
()	_____ → _____	
()	_____ → _____	

303) 글의 주제로 가장 적절한 것을 고르시오.

- ① The reason why fashion exists
- ② Trends that change with social pressure
- ③ People who are fed do strange things
- ④ Reasons to pursue Innovation
- ⑤ Trends in log houses due to technological advances

20-4

A suitable way to ① **describe** how geologists perceive rocks and landscapes is the metaphor of a palimpsest the term ② **used** by medieval scholars to ③ **describing** a parchment that was used more than once, with old ink scraped off to allow a new document to be inscribed.

(A) In the same way, everywhere on Earth, traces of earlier eras persist in the contours of landforms and the rocks beneath, even as new chapters are being written.

(B) Invariably, the erasure was imperfect, and traces of the earlier text survived. These remnants can be ④ **read** using X-rays and various illumination techniques, and in some cases are the only sources of very ancient documents (including several of the most important writings of Archimedes).

(C) The discipline of geology is similar to an optical device for seeing the Earth text in all its dimensions. To think geologically is ⑤ **hold** in the mind's eye ⑥ **what** is not only visible at the surface but also present in the subsurface, ⑦ **that** has been and will be.

304) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

① (A)-(C)-(B) ② (B)-(C)-(A) ③ (C)-(B)-(A) ④ (A)-(B)-(C) ⑤ (B)-(A)-(C)

305) 밑줄 친 ①~⑦ 중에서 문맥상 혹은 어법상 어색한 것을 찾아 올바르게 고쳐 쓰시오. (3개)

기호 어색한 표현 올바른 표현

() _____ → _____

() _____ → _____

() _____ → _____

306) 글의 주제로 가장 적절한 것을 고르시오.

- ① Archimedes' first study of geology
- ② It is more important to see with your mind than with your real eyes
- ③ Geology developed from parchment
- ④ Damage to important documents caused by the rehabilitation of parchment paper
- ⑤ Geology is about putting what exists under the surface into the mind's eye

21-1

One possible disaster ① **resulting** from warmer temperatures in northern areas is a potential tipping point ② **to associate** with the Greenland ice sheet.

(A) Large amounts of freshwater ③ **entering** the North Atlantic off Greenland as the ice melts could shut down the conveyor belt because freshwater does not sink like saltwater. This could trigger an ice age in North America and Europe an ironic consequence of global warming but lone associated in the past with the conveyor-belt shutdown.

(B) Climate scientists worried about this possibility several decades ago and then decided about a decade ago ④ **what** it was very unlikely, but they have now begun to ⑤ **worry** about it again.

(C) The Atlantic conveyor belt" consists of warm water moving up the eastern coast of North America as the Gulf Stream and then sinking 10, 000 feet near Greenland and moving back to the equator, where it warms and rises again.

307) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

① (A)-(C)-(B) ② (C)-(A)-(B) ③ (A)-(B)-(C) ④ (B)-(C)-(A) ⑤ (C)-(B)-(A)

308) 밑줄 친 ①~⑤ 중에서 문맥상 혹은 어법상 어색한 것을 찾아 올바르게 고쳐 쓰시오. (2개)

기호 어색한 표현 올바른 표현

() _____ → _____

() _____ → _____

309) 글의 주제로 가장 적절한 것을 고르시오.

- ① Ice age will occur in Greenland
- ② Fresh water does not mix with sea water, so you don't have to worry
- ③ The chances of an ice age occurring due to warming are very slim
- ④ Climatologists are concerned about the ice age caused by global warming
- ⑤ Our country will be safe even if Europe is ice age

21-2

Dams affect keystone species.

(A) In this example, one such keystone species would be the grizzly bear. Without a large amount of salmon, grizzly bears cannot transport the amount of oceanic nutrients inland to help enrich soils for trees.

(B) Lack of vegetation cover then ① **affects** songbirds and small mammals. If these species disappear, the animals ② **what** hunt them disappear. Rivers that do not produce a bonanza of salmon will not attract bears. They migrate to other areas entirely, ③ **create** a gap at the center of the ecological arch.

(C) First they block the migration of salmon upstream to their spawning streams. Scientists have created fish ladders as well as management schemes ④ **what** transport the fish around the obstacles, but these efforts have ⑤ **limited** success. As salmon are separated from the ecological functions of a habitat, other keystone species are ⑥ **to impact**.

310) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

① (C)-(B)-(A) ② (A)-(C)-(B) ③ (B)-(C)-(A) ④ (C)-(A)-(B) ⑤ (A)-(B)-(C)

311) 밑줄 친 ①~⑥ 중에서 문맥상 혹은 어법상 어색한 것을 찾아 올바르게 고쳐 쓰시오. (4개)

()	_____ → _____	
()	_____ → _____	
()	_____ → _____	

312) 글의 주제로 가장 적절한 것을 고르시오.

- ① Salmon is a very good source of protein
- ② Dams have a great impact on the entire ecosystem
- ③ The number of salmon is decreasing because of the bears
- ④ If salmon disappears, they will not be able to eat it
- ⑤ I want to eat delicious salmon

21-3

Sixty-five million years ago a meteor the size of New York slammed into the Earth.

(A) The environmental chaos ① **that** ensued is widely believed ② **having** put paid to the dinosaurs. But it also had a less well-known effect. According to Ken Caldeira at the Carnegie Institution of Washington in California, the meteor also threw up vast amounts of sulfur, which then rained down on the ocean as sulfuric acid.

(B) The upper ocean ③ **became** acidified for a brief moment, perhaps only one or two years. But that was enough. More or less every sea creature ④ **that** built shells or skeletons out of calcium carbonate became either rare or extinct.

(C) A handful of corals must have survived, or we would not still have them on Earth today. But they were nonetheless too scarce ⑤ **leave** their imprint; they did not reappear in the fossil record for a full two million years.

313) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

① (B)-(A)-(C) ② (C)-(A)-(B) ③ (B)-(C)-(A) ④ (A)-(B)-(C) ⑤ (A)-(C)-(B)

314) 밑줄 친 ①~⑤ 중에서 문맥상 혹은 어법상 어색한 것을 찾아 올바르게 고쳐 쓰시오. (2개)

기호 어색한 표현 올바른 표현

() _____ → _____

() _____ → _____

315) 글의 주제로 가장 적절한 것을 고르시오.

- ① The reason why coral has become extinct
- ② Mass extinction caused by meteors falling in California
- ③ Mass extinction caused by meteors falling in New York City
- ④ Sulfur in a meteorite is more dangerous than a meteorite's collision
- ⑤ The occurrence of sulfuric acid due to meteorite collisions has caused marine life to die out

21-4

It is not common for both sides of a noise barrier ① **to look** identical because it is usually only one side of the barrier that ② **requires** to reflect or absorb noise.

(A) Here, the façade may be plain and ③ **designed** to merge in with neighbouring planting. Most barrier types can be designed with this in mind with the obvious exceptions of transparent barriers and many bio-barriers.

④ **Planting** on either side of the barrier should also be designed with each separate identity in mind.

(B) Thus, the face of the barrier that may be facing a road corridor may include a pattern or have a bright colour whereas the other face which could stand opposite housing, may be treated in a more discreet fashion.

(C) The difference between the two sides of a barrier should be ⑤ **determine** on aesthetic as well as acoustic grounds each side of the barrier should be ⑥ **designed** to integrate with the landscape character and the backdrop against which it is to be viewed.

316) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

① (C)-(B)-(A) ② (B)-(A)-(C) ③ (B)-(C)-(A) ④ (A)-(C)-(B) ⑤ (C)-(A)-(B)

317) 밑줄 친 ①~⑥ 중에서 문맥상 혹은 어법상 어색한 것을 찾아 올바르게 고쳐 쓰시오. (2개)

기호 어색한 표현 올바른 표현

318) 글의 주제로 가장 적절한 것을 고르시오.

- ① The two sides of the sound barrier should be designed with a different identity in mind
- ② The problem of soundproof walls hurting the natural landscape
- ③ Installation of soundproof walls to address noise complaints
- ④ Why soundproof walls are becoming more expensive
- ⑤ Trees are more effective than artificial soundproof walls

22-1

The people who came before you invented science because your natural way of understanding and explaining ① what you experience is terrible.

(A) Scientists and laypeople will conjure up new stories using the data, and they will argue, but the data will not budge. They may not even make sense for a hundred years or more, but thanks to the scientific method, the stories, full of biases and fallacies, will ② be crashes against the facts and recede into history.

(B) When you have zero evidence, every assumption is basically equal. You prefer to see causes rather than effects, signals in the noise, patterns in the randomness.

(C) You prefer easy-to-understand stories, and thus turn everything in life into a narrative so that ③ complicated problems become easy. Scientists work to remove the narrative, to boil it away, ④ left behind only the raw facts. Those data sit there, naked and exposed, so they can ⑤ be reflected upon and rearranged by each new visitor.

319) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

- ① (B)-(A)-(C) ② (B)-(C)-(A) ③ (C)-(B)-(A) ④ (C)-(A)-(B) ⑤ (A)-(B)-(C)

- ① Stories in Science Fiction
 ② Types and Effects of Argument
 ③ How to Correct Scientific Errors in Science
 ④ How Scientists Create Scientific Theory
 ⑤ The Background and Characteristics of Genesis of Science

22-2

As the sun rises in the morning, sunlight warms the ground, and the ground warms the air in contact with it by conduction.

(A) However, on a windless day, this form of heat exchange ① **which is** slow, and a substantial temperature difference usually exists just above the ground. This explains why ② **do runners** on a clear, windless, summer afternoon may experience air temperatures of over 50°C at their feet and only 32°C at their waist.

(B) However, air is such a poor heat conductor ③ **where** this process only takes place within a few centimeters of the ground. As the sun rises higher in the sky, the air in contact with the ground becomes even warmer, and there exists a thermal boundary ④ **separated** the hot surface air from the slightly cooler air above.

(C) ⑤ **Given** their random motion, some air molecules will cross this boundary: The hot" molecules below bring greater kinetic energy to the cooler air; the cool" molecules above bring a deficit of energy to the hot surface air.

322) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

① (C)-(B)-(A) ② (C)-(A)-(B) ③ (B)-(C)-(A) ④ (A)-(B)-(C) ⑤ (B)-(A)-(C)

- ③ Differences in Temperature according to the Position of the Sun
- ④ Causes of Temperature Difference above the Ground
- ⑤ Characteristics of Heat Radiation and Convection on the Ground

22-3

The idea of using cold temperatures to extend the shelf life of food ① have been known for centuries.

(A) Bacon decided to buy a chicken whose organs had been removed and stuff it with snow, thus demonstrating that refrigeration ② were a remarkable way of keeping food fresh for longer. Unfortunately, as the whole escapade was a spontaneous experiment,

(B) The great Francis Bacon, the early seventeenth-century polymath rather than the twentieth-century painter, ③ is generally credited with inventing the frozen chicken. It was not all the did, but certainly the only thing relevant to refrigeration. In the early spring of 1626, while on the way to Highgate in North London, for reasons ④ unrecording,

(C) Bacon ⑤ must have been unsuitably dressed for the snow. He caught a chill, ⑥ which became pneumonia, and he died shortly thereafter while still at Highgate. He died a martyr to his science and sadly history does not record the fate of the world's first oven-ready frozen chicken.

325) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

④ Why Storage in a Freezer Is Better Than Refrigeration

⑤ How to Enjoy Frozen Food

22-4

Genetic diversity, the heritable diversity among individuals and populations within species, provides the basis for evolution.

(A) Over millions of years it has enabled forests and trees to adapt to changing conditions. Some tree species have been ① domesticated, but the management of forest genetic resources mainly involves tree populations ② what have undergone little selection by humans.

(B) The vast majority of forest genetic diversity remains undescribed, especially in the tropics. Estimates of the number of tree species vary from 80, 000 to 100, 000, but fewer than 500 ③ have studied in any depth.

(C) Until recently, studies of forest tree genetic resources have concentrated on the few species ④ regarded as the most suitable for domestication for use in plantations and agroforestry systems to produce wood, fibre or fuel. The present and future potential of most tree species to adapt in response to novel climatic conditions or for genetic improvement for human use ⑤ remains largely unknown.

328) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

① (B)-(A)-(C) ② (A)-(C)-(B) ③ (B)-(C)-(A) ④ (A)-(B)-(C) ⑤ (C)-(A)-(B)

- ⑤ the Problem of Biodiversity Resulting from Deforestation

23-1

Today zoo managers recognize the need to provide a place for privacy for their charges. Most species need the opportunity ① to be free from the peering faces.

(A) It is unnatural to provide a wild animal with unearned food — thereby depriving it of one of its predominant activities in the wild — so every effort must ② make to replicate that activity. Unfortunately, that can never be done for the large carnivores.

(B) The animal's 'flight distance' — the distance ③ which it will flee an approaching human — must be respected. Since animals spend much of their time foraging, wherever possible food must ④ hide so that it is sought.

(C) Even if, say, one ⑤ were to introduce a live zebra into a lion's area there would be no hunt — merely a short chase. And this would be as distasteful as it would be unnatural. There is no means of replicating the hunt for the large carnivores in captivity.

331) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

① (B)-(C)-(A) ② (C)-(B)-(A) ③ (A)-(C)-(B) ④ (A)-(B)-(C) ⑤ (B)-(A)-(C)

332) 밑줄 친 ①~⑤ 중에서 문맥상 혹은 어법상 어색한 것을 찾아 올바르게 고쳐 쓰시오. (3개)

- ④ Why Nature-friendly Zoos Are Necessary
- ⑤ Pros and Cons Surrounding the Capture of Dangerous Wild Animals

23-2

Cruise ships generally stay at ports of call between six and twelve hours, although you will find a number of itineraries with overnight port stays.

- (A) One solution to this potential disadvantage is to select a cruise ① **what** begins and, or ends in a large city — and this is the majority of Mediterranean cruises. You can then add days at either or both ends of your cruise ② **allows** more time for in-depth sightseeing.
- (B) This limited time allotment in port ③ **is** fine for small towns and other specialized" ports of call, such as ancient historic sites or resort islands, but it can present a problem when visiting larger cities.
- (C) A pet peeve of mine, for example, ④ **is** the cruise that has Rome as a day port of call. How can anyone do justice to Rome in a single day? Again, how ⑤ **much** of a problem this is depends upon your expectations.

23(3-4)

Does an NBA all-star who is young, handsome, rich, and famous need to ① be told by his coach that he's playing well? Apparently, the answer is yes. In 1999, Chuck Daly was considered one of the best coaches in the NBA, and Penny Hardaway, one of Daly's players on the Orlando Magic, ② was one of the stars of the league. Hardaway hit a mild slump in his shooting and the team lost three in a row. Daly said little to him, so Hardaway concluded that the coach ③ had lost confidence in him. In an interview with The New York Times, Hardaway said he had probably jumped to the wrong conclusion from the coach's silence. I know we make all this money and everything, and you wouldn't think some of us need reinforcement. But you want to hear from your coach ④ which you're doing well, even at this level". Daly, known as a players' coach, solved the problem by having a private, heart-to-heart talk with Hardaway. He reminded him ⑤ what he was a great player, told him to have fun, and invited him to come and talk to him any time he wanted. Hardaway broke out of his slump and the Magic went on a winning streak. Hardaway said later, I'm not saying that was the main reason we haven't lost since, but it definitely helped. He let me ⑥ to know how important I was to this team".

Although tone color has a scientific explanation, ① its function in music is aesthetic.

(A) Music is an art of sound, and the quality of that sound ② have much to do with our response to it. Indeed, the concept of tonal beauty varies considerably in different periods, styles, and cultures.

(B) On the other hand, within a particular context, ideals of beauty may be quite firmly established and performers often pay extraordinary prices for instruments ③ what can produce that ideal sound. But no instrument automatically produces a beautiful tone, so the finest violin will produce a rasping, scraping sound in the hands of a beginner.

(C) Even at the most advanced stages of accomplishment, ④ achieving what is considered to be a beautiful tone ⑤ be a criterion of a good performance.

24-2

Although they were internally organized by machines — cameras — early photographs resembled drawings and paintings because they ① were depicted the world according to linear perspective.

(A) The camera obscura was popular with artists because it automatically modified a scene by compressing form and emphasizing tonal mass according to Western pictorial standards.

(B) The camera was not ② designed as a radical device to unleash a new way of seeing, but ③ evolved to produce a redefined look that took into consideration formulas and procedures such as composition, angle and point of view, quality of light, and selection of subject matter. What was ④ being represented remained unchanged. This does not diminish the camera's importance in defining an image.

(C) As with most inventions, unforeseen side effects create unintentional changes. As imagemakers became more sophisticated they routinely ⑤ were used specific cameras and lenses to shape an image, and knowledgeable viewers can often trace the connections between the camera, lens and the resulting picture.

24-3

The effectiveness of green architecture ① was depended upon the balance of on-site energy sources with building energy conservation.

(A) The ② most conservative" the building envelope, insulation and the tightness of construction, the easier it was to match essential energy loads to the availability of on-site resources. The design motto was conservation first!

(B) In warmer climates attention ③ was given to the solar control of the envelope, especially roofs and western facades, as well as to natural ventilation and daylighting.

(C) Conservation conscious design ④ which was in sharp contrast to previous modernist tendencies of spatial generosity, complexity of form, expansive glazing areas, and reliance on abundant fossil fuels and mechanical systems for heating and cooling.

(D) In colder climates, construction ⑤ was focused on solar energy gain, heat retention using higher insulation values and double-glazing, and even movable insulation.

24-4

Music tourism sites and attractions generally attract two kinds of visitors: those particularly drawn for whatever reason to the memory or music of a particular performer, composer or genre (most obvious for festivals), and those ① **they** are there because the place fits into an itinerary devised for other reasons or because the visit ② **is** likely to be enjoyable.

(A) Thus, at Abbey Road, a place identified in many general guidebooks, most visitors were there because they had some appreciation of the Beatles' music, but others were there simply because it was part of an agenda ③ **that** included a range of obvious London landmarks.

(B) New Orleans and the Cajun region are popular with French tourists. For French tourists, travel to New Orleans in part allows an experience of Francophone identities in the New World, just as it is more likely to be Americans who ④ **visits** Jim Morrison's grave in Paris.

(C) Particular links to music sites are, however, ⑤ **much** more idiosyncratic and dependent on personal musical taste. Wider cultural and national links may also be evident.

- ⑤ The role of parents affects in many ways for children in young age

26-1

The ancient Greeks had a word ① that lies at the heart of procrastination: akrasia, means doing something against our own better judgment. When we procrastinate, we act against our own self-interests, ② satisfying the desire for immediate gratification by ③ sacrificed our own longer-term goals and well-being.

(A) The essence of procrastination is to willingly put off something even though you ④ expecting the delay to make you worse off.

(B) Whenever we knowingly delay doing what's necessary in favor of the easier, less ⑤ importantly task, we feed the demon of procrastination.

(C) The pile of important papers you never quite get to. The new job you put off looking for even though going to your current place of employment is the bane of your existence.

363) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.

- ⑤ Technological development would bring lots of benefit for human

27-3

Children, of course, have less control over their attention than adults, but when they do ① pay attention, they open their minds more fully to the message presented.

(A) And by the late 1950s, toy makers began creating toys specifically designed to be ② advertised on television — like Mattei's first girl-directed toy, the Barbie doll, whose commercials, which ran during breaks in The Mickey Mouse Club, chronicled glamorous episodes in Barbie's life.

(B) By the late 1950s, programmers had ③ been learned to create shows that in a sense served as advertisements themselves, like The Mickey Mouse Club, ④ what helped nurture enduring attachments to characters like Mickey Mouse, Donald Duck, and other friends. That, in turn, ⑤ helped drive sales of toys, tickets to Disney's feature films, trips to Disneyland, and so on.

(C) By the early 1950s advertisers had ⑥ coming to understand the commercial potential of reaching children by television. The Howdy Doody Show, featuring a clown and a dancing puppet, for instance, was sponsored by a famous food company, and during every show Howdy Doody would dance around a cereal box. But those were the early days.

- ② In fashion industry, hybrid is taking a big role by mixing up it items
- ③ The hybrid trend is not applied to the industry of fashion style
- ④ Being cool means that you are having freedom to show your own taste
- ⑤ She raised the right of women, freedom of black slave and universal education

405) 글의 주제로 가장 적절한 것을 고르시오.

- ① Confidence is more important than fashion
- ② Rich people have a good sense of fashion
- ③ Fashion repeats itself
- ④ There is absolute fashion
- ⑤ Fashion requires money, too

29-3

Politicians, especially those in the national spotlight, are often jokingly ① **accused** of being narcissists but, in all seriousness, their profession lends itself to this particularly ② **destructive** personality trait.

(A) Finally, you constantly have people relying on you, believing in you, and holding you responsible as the sole representative of a cause. All of this power can lead to an exaggerated sense of self-importance ③ **that** can cause some individuals to believe that the world revolves around them. That's when their out-of-control behaviors become easier to rationalize.

(B) Furthermore, you are constantly given sole credit for successes — even though those successes were achieved, in part, by the work of many aides and assistants.

(C) For example, in order to be a successful candidate, you have to be ④ **unnaturally** optimistic even in the face of probable defeat and possess high levels of self-esteem despite the constant criticism ⑤ **what** comes with the territory.

408) 글의 주제로 가장 적절한 것을 고르시오.

- ① There are lots of dissenters for the welfare policy from government
- ② To be a politician, you have to have high self esteem
- ③ War comes from hope and fear not political or economical issues
- ④ The justification about welfare policy is still controversial
- ⑤ Political issues have always been in pros and cons for history

409) 글의 주제로 가장 적절한 것을 고르시오.

- ① The reason why politicians are corrupt
- ② The peculiarity of politicians
- ③ Why self-respect is important for children
- ④ The reason why politicians are constantly being criticized
- ⑤ To deprive others of their achievements should be punished

29-4

Many of those who ① **oppose** globalization reserve their highest loyalties to the sovereign state, which they believe exists to protect their interests.

(A) They argue ② **what** in democratic states, such as those in Europe and North America, citizens have a voice in determining their own fates but have little or no voice in the boardrooms of giant transnational corporations, remote international bureaucracies like the EU or WTO, or economic markets, and such institutions are not accountable to citizens.

(B) Globalization, they believe, is eroding the rights and capacity of people to determine their own future. The result is alienation and anxiety, as people's lives are troubled by remote forces beyond their control or understanding.

(C) Thus, anti-globalizers argue, globalization has ③ **been created** a democratic deficit by empowering institutions in ④ **that** people have no voice and unleashing economic and cultural forces over ⑤ **which** they have no control.

 ④ You can get over from hard situation by having the positive energy
 ⑤ To take sufficient calories is needed to be in positive condition

30-3

The anti-aging industry promotes a particular image of longevity ① that is ② reduced to biomechanical processes at the cellular level.

(A) We can greatly ③ be influenced our well-being through diet and nutritional knowledge, not just ④ consumed dietary supplements. Longevity is not guaranteed, but the possibility of accessible self managed care on a daily basis through attention to one's food can enhance the quality of one's life.

(B) Gaining broader cultural knowledge of medicinal foods may offer alternatives to anti-aging discourse in ⑤ which bodies are subject to biomechanical processes. Traditional systems of medicine offered insights based on observation of the subtle interactions of food and environment of human bodies.

(C) Such discourse focuses on longevity as an individual body's battle against aging rather than considering aging in a broader social and historical context. In an era when care of the self comprises a vast industry, healing through nutrition and healthy diets may seem too low-tech or slow.

420) 다음 주어진 글에 이어질 순서로 바르게 짝지어진 것을 고르시오.
